CAREER SUMMARY:

As a final year undergraduate in information technology, I'm actively seeking for a position as a Software QA engineer. I have work with projects and hold multiple certifications in software testing and programming. Eager to apply my theoretical knowledge and professional setting. I'm committed contributing to innovative projects while gaining valuable industry experience.

WORK EXPERIENCE:

Gamage Recruiters (PVT) Ltd

QA Intern | 17 October, 2025 – 10 April 2026

- Ensure user satisfaction and retention by providing responsive tech support.
- Build and maintain software documentation sites using various programming languages.
- Increase productivity by using software to organize, track bug patches and add feature requests.
- Collaborate with other developers to update the website and create new features.

Trischel Fabrics (Private) Ltd – MAS

IT Intern | 16 June, 2025 – 16 October, 2025

- Create a Power BI for Machine maintenance system
- Built and maintained websites for Machine maintenance system
- Filed reports, gathered information

PERSONAL PROJECTS:

Automation Testing

CTMS Project – Postman testing

- Test the backend endpoints using postman
- create test reports

Pick and go project – Cypress Testing

- Pick and go is an online booking app. Covered essential testing aspects to simulate real-world testing scenarios and understand the full testing lifecycle.
- Test all the crud parts in frontend using cypress

Student Management System – Selenium Testing

- It's an online student management portal including login and dashboard functionalities
- Ensured application reliability by performing functional, regression, and UI testing.

Manual Testing

- CTMS HR Project – Manual test frontend and create a test and bug report
